## Interchangeable burners

**Precision**

**Soft soldering**

**Heating**

**Brazing**

**Paint stripping**

**Shrinking**

**Pin-point burner  
870201**

- For small soft soldering jobs
- Gives a precise and stable flame

**Standard burner  
870401**

- For soft soldering and other small heating jobs

**Cyclone burner  
870601**

- For brazing and soft soldering
- Intensive and effective short flame that reaches around the pipe

**Cyclone burner  
870701**

- For brazing and soft soldering
- Highly efficient cyclone burner with increased tip diameter

**Hot-air burner  
870801**

- For shrinking and paint stripping
- Powerful and wind stable hot-air stream

**Soft flame burner  
871001**

- For shrinking and heating jobs
- Powerful and wind stable soft flame
