- ✓ Maximum Safety

Tolecut

K800 - K3000

TOLECUT
K800 - K3000
Imperfection Removal

BUFLEX DRY
K2000 - K3000
Finishing

K2IN1
Polishing

Imperfections are removed in no time, thanks to Tolecut. **Remove dust nibs** with the pre-cut 1/8 sheets K1500 - K3000 in just a couple of seconds. When it comes to concave and convex parts, use the Tolecut sheets in combination with the Tolecard. For **runners and bigger surface irregularities** the grits K800 & K1200, in combination with the Tolecut Pad, are the first choice. After removing the imperfection we recommend to use Buflex Dry in order to save polish time.
