

# Maxcut

## P60 - P180

---

THE NUMBER 1 SOLUTION FOR HARD PUTTY  
AND METAL SANDING.

METAL SANDING

REMOVING OLD LAYERS

PUTTY SANDING

- √ Extremely Hard Grain
- √ Open Structure
- √ Extreme Durability  
Even on Hard Surfaces

# Maxcut

## P60 - P180

### MAXCUT P60 - P180

Metal Sanding,  
Removing Old Layers,  
Putty Sanding

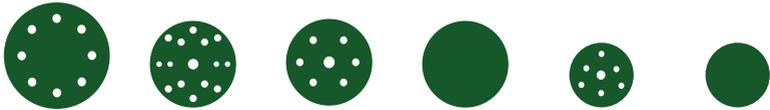

### MAXFILM

P80 - P600  
Metal Sanding, Removing  
Old Layers, Putty Sanding,  
Primer Sanding

### SUPER ASSILEX

K240 - K1500  
Putty Sanding,  
Primer Sanding,  
Blending, Finishing

The challenge when **removing all old layers**, is the short sanding life due to the direct contact to bare metal. Maxcut however achieves long sanding life even on the hardest surfaces. Maxcut P60/P80 can even be used to **remove welding seams and welding points**. In order to improve sanding life, this application should be done with the Maxcut discs without holes. After the heavy sanding work, follow up the preparation process with the Maxfilm or Tri-Pro series.
