

PNEUMATIC PLANETARY SANDER WITH 150MM PAD – AK150A

AK150A

Pneumatic planetary sander with eccentric-rotary motion for maximum removal rates

Two handed grip

Tool start up with rotary valve

Fitted with a Ø 150 mm pad with 6+1 holes

Excellent removal rate for dust produced

Speed control valve

Designed for connection to extraction systems with pivotable connector

Pressure regulator eliminating the “blow back” effect of the pad on the surface

The special forced gearing motion promotes a high rate of removal with an excellent finish

Pneumatic planetary sander applications

Oxide removal and surface preparation

Removal of “gelcoat” from boats

Paint stripping work and surface preparation

TECHNICAL DATA

Speed control		√
Max consumption air	l/min	400
Weight	Kg	1,700
Stroke per minute		3080 – 8400
R.P.M.		250 – 700
Working pressure	bar	6
Ø orbit	mm	5
Ø backing pad	mm	150
