Shine Mate

Create Shining Perfection ...

High-Performance
Auto Polishing Tool System

ShineMate polishing tool system is built based on the integrated design and manufacturing of electric sanding/polishing machine, buffing pads, and compounding chemical. Covering the bodyshop refinishing and car care detailing fields.

Our electric polishing machines are all designed for lightweight , ergonomic in shape, and high output torque. Orbital machines are built with advanced eccentric balance control technology to keep the machines free of vibration and reduce operator fatigue.

FlexEdge backing plates are made with PUR molding technology, offer excellent flexibility and durability. The world's first innovative Black Diamond foam pads, cover all the processes of compounding to finishing, reduce polish splash, smooth handling, withstand high temperature and water wash, reduce hologram.
......
This unique and outstanding product combination was built based on our profound experience in the paint polishing process, continuous innovation, and production capacity of our own manufacturing plants.

With superb production technology, friendly prices as well as good market reputation, ShineMate won customers trust and love, became the famous brand of car polishing tool system in more than 70 countries and regions.

Waiting for your inquiries!
ShineMate Team

Index

18V Li-ion Battery Pack

- Premium battery core inside
- High capacity for long running time

Model	B1825A	B1850A
Capacity	2.5Ah	5.0Ah
Voltage	18V	18V
Weight	0.40kg	0.70kg
AirCool	✔	✔

Battery Charger BC182

- Dual Channel for 2 battery charge
- 100-240VAC input
- Integrated AIRCOOL technology
- Up to 6.5Amp charge current
- MCU controlled advanced circuit

Rapid dual-channel charger for two batteries to charge sequentially without manual intervention.

Both battery and charger equipped with an intergrated AIRCOOL system for total cooling.

Model	BC182
Input	100-240VAC 50/60Hz
Output	18VDC 6.5Amps
Rated Power	160W
Recommended Ambient	+4°C to +40°C
Weight	0.85kg

ShineMate Robust Solution For Polishing

Precise polishing and maximum performance are in demand, ShineMate's mobile battery-powered polishing solutions will make your work more efficient.

The combination of 18V high-performance Li-ion battery pack and brushless DC motor(BLDC) with integrated motor management guarantees impressive polishing performance. Without the need for power outlets and cables.

In order to reduce the work fatigue , ShineMate cordless power tools system is ergonomically designed, it has a reduced weight with no detriment to performance, it is powerful enough for any kind of polishing application.

System Cordless

Thanks to the rapid-charging technology, the battery packs with high capacity and long running time, work without interruptions.
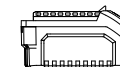

Enjoy the freedom of movement and mobility !

Rotary Polisher **EB251** is professionally designed and manufactured for automotive and industrial polishing works.

▸ **Brushless DC Motor(BLDC):** With greater efficiency and a longer service life.

▸ **Double-reduction Gearing:** Maintain double torque even at low sppeds to achieve low-speed polishing of paint without overheating.

▸ **Stepless Speed Setting:** Preset the maximum speed between 700-1500/min.

▸ **Accelerator Switch:** Pressing the switch trigger increases the speed. The speed can be regulated steplessly between 300/min and the speed preset on the adjusting wheel, enable the operator to control the speed precisely and freely.

▸ **Light Weight:** Only 1.7kg (no battery), well-balanced distribution, less fatigue for the long time

polishing work.

Full-Wave Electronics Controlling

▸ **Constant Speed Output:** The preseted speed remains constant through electronic control to ensure a uniform polishing speed even when under load.

▸ **Smooth Start-up:** The electronically controlled smooth start-up ensures safety, extends the service life of the trigger, motor and gearing, reduces splash of polishing compound.

▸ **Overload Current Limiting:** Current limiting prevents excessive current consumption under extreme overload, which can lead to a decrease in the motor speed. The motor restarts after the on/off switch trigger is released and re-pressed.

Random Orbital Polisher **EB351** is professionally designed and manufactured for automotive and industrial polishing works.

▸ **High-precision CNC Eccentric Balance**: To provide the polishing with ultra smooth running and minimize the vibration.

▸ **Stepless Speed Setting:** Preset the maximum speed between 2000-5000/min.

▸ **Accelerator Switch:** Pressing the switch trigger increases the speed. The speed can be regulated steplessly between 1000/min and the speed preset on the adjusting wheel, enable the operator to control the speed precisely and freely.

▸ **Soft Grip Hood:** Ergonomically shaped with soft grip, the machine can be controlled with precision and is always comfortable yet secure to hold and polishing in any angle and position with steady handling.

Full-Wave Electronics Controlling

▸ **Constant Speed Output:** The preseted speed remains constant through electronic control to ensure a uniform polishing speed even when under load.

▸ **Smooth Start-up**: The electronically controlled smooth start-up ensures safety, extends the service life of the trigger, motor and gearing, reduces splash of polishing compound.

EP801 G2

UPGRADED G2

✓ *Better motor performance*
✓ *More precise Gear System*
✓ *Spindle Lock*

**DOUBLE 2 TORQUE**

Model		EP801 G2
Input Power		Rated 800W (Max.1200W)
No Load Speed		700-2500/min
Backing Plate	Suggested	123mm (5inch)
	Max.	148mm (6inch)
Foam/Wool Pad	Suggested	150mm (6inch)
	Max.	180mm (7inch)
Net Weight		2.2kg
Gear System		Double-reduction
Output Shaft		M14
Accessories		5" FlexEdge BP, Wrench, Side Handle

• **Light Weight**

• **Easy Control**

• **High Torque**

• **Speed Stabilizer**

• **High Reliability**

Designed for professional automotive polishing

• Suitable for overall and partial car polishing

• Ergonomic body design

• Lightweight 2.2kg

• Double-reduction Gearing System to provides two times the torque of a single gear set polisher

• Variable Speed 700-2500/min, Soft start

• Built-in speed stabilizer to offer the constant speed output under load

• Configured with long-life motor and carbon brush

• 5-meter long power supply cord

Outstanding Features:

Double-torque Gear System

Offers high output torque and stable constant speed at low speed polishing.

Spindle Lock

Accessible from the gear case cover, for easy backing plate changing. The orange protective shield must be removed before use.

Low Profile Design

The minimal distance from the pad to the body of the polisher allows better control.

⚠ 1) Ideal for overall and partial polishing.
2) Best to use foam/wool pad of 3-6 inches.
3) Do not use pads bigger than 7" (180mm) to avoid over-load.
4) Do not work at speed 1-2 for long time to avoid over-heat.

Model		EP812 G1+ UPGRADED
Input Power		Rated 1250W (Max.1900W)
No Load Speed		700-3500 /min
Backing Plate	Suggested	150mm (6inch)
	Max.	180mm (7inch)
Foam/Wool Pad	Suggested	180mm (7inch)
	Max.	200mm (8inch)
Net Weight		3.0kg
Output Shaft		M14
Accessories		6.3" FlexEdge Backing Plate, Wrench Side Handle, C-Handle

Designed for professional Auto polishing

• Powerful 1050W motor

• Light weight of 2.2kg

• Variable speed 700-2500/min, Soft start

• Trigger to adjust speed freely

• Ergonomic design for comfortable holding

• Built-in speed stabilizer, to offer the constant
  speed output

• Spindle lock for quick backing plate change

• 5-meter long power supply cord

Model		EP802
Input Power		Rated 1050W (Max.1500W)
No Load Speed		700-2500/min
Backing Plate	Suggested	125mm (5inch)-150mm (6inch)
	Max.	160mm (6.3inch)
Foam/Wool Pad	Suggested	150mm (6inch)-180mm (7inch)
	Max.	200mm (8inch)
Net Weight		2.2kg
Gear System		Double-reduction
Output Shaft		M14
Accessories		6" FlexEdge BP, Wrench, Side Handle Carbon Brush

Designed for Heavy-Duty industrial and professional polishing works

• Powerful optimized 1250W motor

• Variable Speed 700-3500/min

• Overload protection at low speed operation

• Built-in speed stabilizer to offer constant speed
  output under load

• Soft grip for comfortable holding

• Flexible backing plate for perfect contour face
  polishing and easy control

• Ultra-long service time of gear system

• 5-meter long power supply cord

Separate kit: ITEM.NO 14231-24 K13
（One pc backing plate,two pcs of each polishing pad included.）

Note: The polishing pads may be substituted with other colors of same size. Subject to the actual delivery.

- **Designed for spot area polishing**
- **Slim body design, light weight 1.65kg**
- **Long-life motor and carbon brush**
- **Double-reduction gear system**
- **Constant speed & soft start**
- **Optional multiple accessories**

Mini Polisher Kit

MPK-3

Flexible shaft polishing tool kit
Ideal to work with Rotary Polisher

- Shank Dia.:3mm
- Max.Pad Size: 27mm
- Max.Speed: 4000/min

(Electric Polisher Excluded)

Kit Contents:

- Flexible Shaft Polishing Tool
- Rotary Polisher Adaptor
- Polishing Cone
- Polishing Ball
- Backing Plate Dia.15mm
- Backing Plate Dia.25mm
- Foam Pads in different grades
- Wool Pads
- Wrench

Flexible shaft polishing tool, with multiple accessories Designed for automotive detail polishing.

Flexible shaft with lock, easy to change pads

Applicable to mount on rotary polisher and drill

Multiple accessories included, easy to reach narrow areas

Vibration-Free

ShineMate Orbital Polishing System

- **Leading vibration elimination**
- **Superb production technics**
- **Full range polishing pads**

EX620 *Orbital Polisher*

Max.Speed: 5800/min

EX610 *Orbital Polisher*
Orbit Size 21MM / 15MM

A heavy-duty tool designed and manufactured for professional automotive polishing users.

Upgraded Power
Rated 800W (Max.1200W)
Power improved by 60%

High-precision Components
High-precision CNC technics for smooth polishing

Improved Speed
Up to 5800/min for greater polishing efficiency

Accelerator Switch
Precise speed control

Vibration Inhibition Technology
Well balanced for smooth operation

Intelligent Speed Control
Constant speed output under load

High-precision CNC components

Dust Devil Multi-hole backing plate

Variable Speed with Stabilization

Smooth handling for long-time use

✓ *Vibration-Free Technology*

✓ *Smoother Control*

✓ *For Refinishing & Detailing*

EX620 orbital polisher, one of ShineMate EX series new products, has superior performance and the power and speed are both greatly improved. The machine is built with vibration inhibition technology and high-precision CNC technics to optimize the operation, and the ergonomic design reduces operator fatigue. Together with the new polishing consumables, efficient polishing can be achieved.
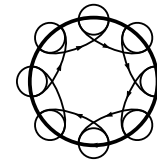

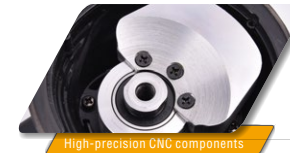

Specifications:

Model	EX620-6/21	EX620-6/15	EX620-5/15
Orbit Size	21mm	15mm	15mm
Backing Plate	148mm (6in)	148mm (6in)	123mm (5in)
Foam Pad	180mm (7in)	180mm (7in)	150mm (6in)
Input Power	Rated 800W (Max. 1200W)		
Free Speed	3000-5800/min		
Net Weight	2.6kg		
Thread	M8		
Accessories	Backing Plate, Hex-Wrench, Carbon Brush		
Optional Accessory	5''weighted backing plate(for 6''polisher)		

• Leading vibration elimination technology, reduce operator fatigue

• Dust-Devil multi-hole backing plate to keep pad temperature low

• Soft start to reduce splash

• Speed stabilizer to offer the constant speed output

• Configured with long-life motor and carbon brush

• Ergonomic body design

• 5-meter long power supply cord

Specifications:

Model	EX610-6/21	EX610-6/15	EX610-5/15
Orbit Size	21mm	15mm	15mm
Input Power	Rated 500W (Max. 750W)		
Free Speed	2000-4500/min		
Backing Plate	148mm (6in)	148mm (6in)	123mm (5in)
Foam Pad	180mm (7in)	180mm (7in)	150mm (6in)
Net Weight	2.6kg		
Thread	M8		
Accessories	Backing Plate, Side Handle, Hex-Wrench		

⚠ 1) Do not change the original backing plate to other sizes or weights, for the orbital polishers require precise weight balance of pads.
2) Use ShineMate foam/wool pad for best performance and vibration-free work.

EX605 Orbital Polisher
Orbit Size 12mm

For overall & partial polishing

✓ **Compact Design**
✓ **Easy to Control**
✓ **Ultra-slim Body**
✓ **Free of Vibtation**

Specifications:

Model	EX605
Orbit Size	12mm
Input Power	Rated 500W (Max.750W)
Free Speed	2500-5500/min
Backing Plate	123mm (5in)
Foam Pad	150mm (6in)
Net Weight	2.2kg
Thread	M8
Accessories	Backing Plate, Side Handle, Hex-Wrench

EX603 Orbital Polisher
Orbit Size 12mm

Ideal for partial polishing

Specifications:

Model	EX603
Orbit Size	12mm
Input Power	Rated 500W (Max.750W)
Free Speed	2500-5500/min
Backing Plate	74mm (3in)
Foam Pad	100mm (4in)
Net Weight	1.9kg
Thread	5/16"-24
Accessories	Backing Plate, Side Handle, Wrench

Foam Pad 4"/6"/7"

Green T120 heavy cut foam is in solid construction, it fast removes the deep scratches, over spray, 1200/1500# sanding disc marks, and heavy oxidation. Cut like wool pad and leave high gloss finish. Applicable for scratch resistant and high solid ceramic paints.

CUT Level

Item No.	34114-9	34116-9	34117-9	
Size	100x25mm	150x25mm	180x25mm	**T120**

Yellow T80 high cut foam has an intensive cutting action that will remove deep scratches, over spray, severe swirl marks, 1500# sanding disc marks, and heavy oxidation when used in conjunction with heavy polishing compounds.

Item No.	34114-1	34116-1	34117-1	
Size	100x25mm	150x25mm	180x25mm	**T80**

Blue T60 foam has moderate cutting action that will remove 1500/2000# sand scratches, over spray, and surface imperfections when used in conjunction with polishing compounds.

Item No.	34114-6	34116-6	34117-6	
Size	100x25mm	150x25mm	180x25mm	**T60**

Orange T40 foam is universal and multi-purpose, it has a light cutting action, and will remove scratches and swirl marks while leaving a level and smooth surface, can be used in conjunction with heavy polishing compounds or micro-fine compounds.

Item No.	34114-4	34116-4	34117-4	
Size	100x25mm	150x25mm	180x25mm	**T40**

Red T10 foam has very light cleaning action for removal of ultra-fine swirl marks, car wash scratches, and hazing, leaving a swirl-free gloss finish when used in conjunction with finishing polishes.

Item No.	34114-7	34116-7	34117-7	
Size	100x25mm	150x25mm	180x25mm	**T10**

Polishing Cones for corner and narrow area polishing

Use in conjunction with liquid polish for high-gloss restoration
Work with electric tools with Max.Speed 3500/min
Cone diameter: 80mm

Polishing Cones for electric drill

Item No.	Color	Mounting	Density
48020-1	Yellow	6mm shank	Medium
48020-8	Maroon	6mm shank	Medium

48020-4	Orange	6mm shank	Medium
48020-7	Red	6mm shank	Ultra Fine

Polishing Cones for Rotary Polisher

Item No.	Color	Mounting	Density
48130-12	Yellow	M14	Medium
48130-82	Maroon	M14	Medium
48130-62	Blue	M14	Medium
48130-42	Orange	M14	Medium
48130-72	Red	M14	Ultra Fine

Polishing Balls with 6mm Shank

Item No.	Color
48230-16	Yellow
48230-86	Maroon
48230-66	Blue
48230-46	Orange
48230-76	Red (Ultra Fine)

1/4"-20

6mm

72011(Long Shank Adaptor)

Ball size: 77mm
Comes with a 1/4"-20 threaded short 6mm shank
Optional long shank adaptor (Item No.72011)

Wax Applicator & Cleaning Kit

✓ Hand pad for comfortable holding
✓ Medium foam for interior cleaning
✓ Soft foam for waxing and washing

3" Round Wax Applicator Kit 71132K3
1x soft hand pad 74mm
1x soft foam pad 82mm
1x medium foam pad 82mm

Square Washing & Waxing Kit 71335K3
1x soft hand pad 70x122mm
1x soft foam pad 87x155mm
1x medium foam pad 87x155mm

NEW

New Range of
V-Polish

- Designed for all types of paints
- Free of silicone, wax or glaze
- Water based, biodegradable
- European REACH compliant
- For Rotary & Orbital polishers

V82 Fast Polish
One-step from Compounding to finishing

- Fast cutting compound with high gloss finish
- Eliminate heavy oxidation, scratches and orange peel
- Quickly eliminate 1500 grit sanding marks
- Dynamic-decomposed abrasive partictechnology
- No dusting, easy clean up

Cut & Abrasive
Use with heavy-cut or medium-cut pads T40-T240

V80 Heavy-Cut Compound
Fast cutting & compounding on refinished or aged paint

- High speed heavy cutting compound
- Eliminate heavy oxidation, scratches, and orange peel
- Quickly eliminate 1500 grit sanding marks
- Low dusting, easy clean up

Cut & Abrasive
Use with heavy-cut foam pads or wool pads T80-T240

V20 Final Finish
Restore deep and brilliant gloss

- Eliminate ultra-fine scratches, swirl marks and holograms
- Eliminate 2500 grit sanding marks
- No dusting, easy clean up, for all types of paints
- Suitable for both hand and machine application

Cut & Abrasive

Use with soft-finishing foam pads or micro-fiber pads T05-T20

V40 Medium Polish
One-step from polishing to finishing

- Medium cutting with high gloss finish
- Eliminate light oxidation, scratches and swirl marks
- Quickly eliminate 2000 grit sanding marks
- Dynamic-decomposed abrasive particl technology
- Low dusting, easy clean up

Cut & Abrasive

Use with medium-cut or finishing foam pads T20-T60

Bottle Volume: 500ml

Heavy-Duty Tool Bag

- Heavy-duty durable poly fabric construction
- Top zipped wide open for easy access of tools
- Large interior compartment
- Hard bottom tray gives better protection to the contents
- Ideal for carrying power tool, pads, towels, and polish chemical

Item No.	Size	LxWxH

- Mounted in wall
- Full size for all various kinds of polishers

MOBILE WORKSHOP/TOOLCART FOR POLISHING

NEW

Designed especially for automotive polishing, has great weight capacity and durablity with metal material, and equipped with detachable peg board, which is compatible with mainstream hooks in market, therefore to meet multiple needs.

Art. :	TC026
Dimension:	LxWxH
	66x46.5x102cm (no peg board)
	66x46.5x151cm (with peg board)
Weight:	41kg

Practical Multilayer Structure

Thanks to multilayer structure, the objects like polishers, polishing pads and polishes can be stored in an orderly manner for great work efficiency.

High Weight Capacity

Build-up with steel plate, the workshop has great weight capacity and durablity, which is capable of containing a range of polishing materials.

Detachable Peg Board

The detachable peg board, designed with square hole, which is compatible with mainstream hooks in market, therefore suitable for storage of polishing tools.

Note: the peg board can be installed the back or above of the workshop.

Prevent Unintentional Open

The drawers can prevent unintentional open to reject the unexpected risks.

Side Board

Together with the detachable peg board, the side board of workshop with several holes has more applications.

Universal Wheels

Unrestricted movement with four corners installed with the universal wheels.
