

Description

WS Heat Barrier is a special gel for the protection of surfaces and components from heat and flames in all welding processes.

Protects surfaces even from flames.

Features

- Adheres to all types of surfaces, even vertically.
- It is safe, non-toxic and harmless to the skin with no odour.
- Evaporates 48 hours after application.
- Ideal for back protection of MIG and electrode welds.
- Suitable for all metals, steel, stainless steel, brass, aluminium, bronze, etc.
- Leaves no residue on surfaces.
- Accelerates welding time without the need to dismantle elements that can be damaged.
- It is colourless.

Applications

- Valves.
- Rubbers and gaskets of all kinds.
- Painted or galvanised surfaces.
- Pipelines.
- Walls.
- Fabrics and carpets.
- Wood.
- Glass.
- Sheet metal.
- Any surface susceptible to heat or welding flames.

Instructions for use

- Apply by spraying on the surface to be protected.
